Subject: General Waste Discharge Requirement for Groundwater Remediation at Petroleum Hydrocarbon
Fuel and/or Volatile Organic Compound Impacted Sites
SCH#: 2001111027

Dear Barry Pulver:

The State Clearinghouse submitted the above named Negative Declaration to selected state agencies for review. The review period closed on July 1, 2002, and no state agencies submitted comments by that date. This letter acknowledges that you have complied with the State Clearinghouse review requirements for draft environmental documents, pursuant to the California Environmental Quality Act.

Please call the State Clearinghouse at (916) 445-0613 if you have any questions regarding the environmental review process. If you have a question about the above-named project, please refer to the ten-digit State Clearinghouse number when contacting this office.

Sincerely,

Terry Roberts
Director, State Clearinghouse

**Document Details Report

SCH# 2001111027
Project Title General Waste Discharge Requirement for Groundwater Remediation at Petroleum Hydrocarbon Fuel
Lead Agency and/or Volatile Organic Compound Impacted Sites
Regional Water Quality Control Board, Region 4 (Los Angeles), Monterey Park

Type Neg Negative Declaration
Description The proposed General Waste Discharge Requirements (WDRs) cover the injection or emplacement of chemicals, bacteria and/or nutrients into monitoring wells or excavations for the purpose of cleaning up petroleum impacted groundwater. The various treatment processes (commonly called "in-situ remediation") covered by the proposed General WDRs enhance and accelerate the natural biodegradation process in the subsurface that break down and consume petroleum hydrocarbons. The proposed General WDRs also would cover the return of groundwater, pumped and treated above ground, to the same aquifer zone from which it was pumped.
